

Chillida

architectural terroir

Seminar week, 15. March 2025
until 23. March 2025

Zabalaga baserria, Chillida Leku Museum
(Photography: Idoia Unzurunzaga)

The term terroir is generally used to designate a well-defined and homogeneous geographical area (not necessarily corresponding to any political division) which presents some striking particularity in its agricultural production. With this premise we immerse ourselves in the Basque territory to talk about mythology, landscape, agriculture, industry, identity, gastronomy, art, space and light. We will travel by train to San Sebastian, which will serve as a base camp from which to discover the Basque Country.

Cost range: D (CHF 750.- to 1'000.-).
incl. transport, accommodation, visits,
workshops and some meals.
