

Cloistered Circularity

s' Illa

Seminar week, 16. March 2024
until 24. March 2024

We will visit Mallorca far from its touristic side. A journey to the base of circularity considered in an isolated and specific environment. A place where we will experience the local construction processes, from the procurement of materials to the finished building, through architects such as Utzon, TEd-A, H arquitectes, Aulets and IBAVI.

After the train journey to Barcelona with a short architectural stop we will continue our journey by ferry to Mallorca.

Cost range: D (CHF 750.- to 1'000.-).
incl. transport, accommodation, visits,
workshops and some meals.
